About Operation HOME!

Operation HOME! is a community-wide effort to quickly and permanently house community members who are at risk of severe illness from COVID-19 and are in need of a home in Southern Nevada. Operation HOME! has a goal to house 2,022 unhoused community members by the end of 2022.

The Solution!

Southern Nevada jurisdictions are investing resources to pay rent, utilities and provide services to keep people housed. By assisting with the move-in process, providing services and resources, we can get people off the streets and into a permanent home.
