

NEVADA Housing Coalition

2025 Membership Packet

Mission: To promote the development and preservation of affordable housing for all Nevadans through collaboration, education, and advocacy.

Vision: A Nevada where all residents have access to an affordable place to call home.

Home Means Nevada and Every Nevadan Deserves a Home

Nevada has the country's most severe shortage of rental homes affordable and available to its extremely low-income households. This lack of affordable housing creates a severe cost burden on residents leading to housing instability and forcing households to choose between rent and groceries, transportation, utilities, medical care, and other necessities.

 **86%** Extremely low-income Nevadans paying more than half of their income on rent

 **-78,218** Shortage of rental homes affordable and available for extremely low-income renters

 **14** Affordable rentals available for every 100 extremely low-income households

 **\$64,203** Annual household income needed to afford a 2-bedroom rental home in Nevada
